

MUZAMMAL RAFIQUE

Full Stack Mobile App Developer (iOS & Android) | Flutter | React Native | AWS Certified

Personal Details

Email: MUZAMILRAFIQ000@GMAIL.COM
Phone: +966-509-652856
Location: Riyadh, Saudi Arabia

CAREER OBJECTIVE

Experienced Senior Mobile App Developer with 5+ years of industry experience in building high-performance, scalable cross-platform apps using React Native and Flutter. Skilled in leading full-cycle development, integrating APIs (Twilio, Stripe, Firebase), and optimizing apps for 100K+ users. AWS Certified Solutions Architect Associate with experience in deploying and scaling cloud-native mobile backends. Expert in modern state management, real-time features, and CI/CD automation. Passionate about delivering seamless user experiences and driving innovation in mobile solutions.

EXPERIENCES

SENIOR MOBILE APP DEVELOPER

Helpicon, Sweden, Europe | Remote / Part Time
04/2024 – Present

- Developed the [Helpicon App](#) from scratch, integrating Twilio, Stripe, Swiss Pay, and APIs for 10K+ users.
- Contributed to the development of [Helpicon Web](#) implementing responsive design and APIs integrations.
- Optimized state management using Redux Toolkit, improving API response by 40% and enhancing scalability.
- Reviewed, refactored, and optimized code, enforcing best practices, merging PRs, and mentoring developers.
- Implemented task updates, geofencing, push notifications, and speech-to-text, increasing user engagement.
- Built intuitive onboarding flows and video tutorials, boosting user retention and adoption rates.
- Reduced deployment time by 50% by integrating CI/CD pipelines, automated and continuous delivery.
- Managing full App Store & Play Store deployments, including provisioning, certificates and release cycles.
- Developed NativeModules for platform-specific enhancements on iOS & Android.

SENIOR MOBILE APP DEVELOPER

GreenOrigin | Lahore, Pakistan
06/2021 – 11/2024

- Led the development of 5+ apps for emergency response, IoT, and field management, improving efficiency for 1000s of users.
- Contributed to the development of real-time emergency response apps ([DHA](#) & [Rescue 1122](#)), with 100K+ downloads, enabling instant driver alerts, live chat (WebSockets), tracking, and incident reporting, reducing response time by 30%.
- Designed a scalable Emergency Response Management System, optimizing emergency coordination.
- Built [Res-Ihop](#) ride-sharing app using React Native with Redux Toolkit, Formik, and Google Maps, connecting drivers and passengers for daily and intercity commutes.
- Created Jazz Pakistan FFM, implementing geofencing and task-based forms, improving field workforce efficiency.
- Integrated Google Maps, Mapbox, Firebase, and WebSockets, enhancing real-time tracking and user engagement.

MOBILE APPLICATION DEVELOPER

Megaverse Inc | Lahore, Pakistan
06/2020 - 05/2021

- Developed [Bahria Plus](#) (Real Estate App), enhancing map-based property browsing, increasing user engagement by 50%.
- Optimized UI/UX with Google Maps integration, lazy loading, and infinite scrolling, improving search efficiency.
- Built [SuperHero eSIM](#), enabling travelers to access high-speed internet with different prices in 200+ countries.
- Integrated Stripe payments, Google & Apple authentication, streamlining secure transactions and onboarding.
- Reduced API response by 30% using efficient HTTP (Client) API management & state optimization.

JR. MOBILE APP DEVELOPER

Digital Aimz | Lahore, Pakistan
02/2020 - 05/2020

- Contributed to the Development of Ting Hotspot & Ting Me, enabling users to share gear-related experiences.
- Built Ting Hotspot, allowing businesses to join the Ting network as interactive hotspots. Integrated NFC scanning for gear check-ins, third-party APIs, and a seamless UI for user-friendly interactions.
- Developed Ting Me, a location-based platform to track and share gear journeys, integrating Google Maps, media capture, and APIs.
- Optimized performance & scalability using Flutter, GetX, NFC integrations, and efficient API handling.

CAREER HIGHLIGHTS

- Leadership at GreenOrigin:** Mentored juniors at Green Origin on best practices, code reviews, merging PRs, assigning daily tasks, and ensuring proper code structure.
- Built a solid foundation in mobile/web development through self-learning and hands-on projects.
- Strong communication & collaboration skills gained from working in cross-functional remote teams.

AVAILABILITY STATUS

Transferable Iqama
Immediately Available

SKILLS

- Frameworks:** React Native, Flutter, Reactjs
- Languages:** JavaScript, Dart, TypeScript, Java
- State Management:** Redux (Thunk, Saga, Toolkit), GetX, BLoC, GetIt
- Development Practices:** AWS, CI/CD, Build Flavors, Agile, Version Control (Git, Bitbucket)
- Security & Performance:** Lazy loading, Memoization, Code splitting, Minimized re-renders, Selective widget rebuilds, Secured APIs JWT, encrypted local storage, environment-based config.
- Architecture:** MVC, MVVM BLoC
- Networking & APIs:** RESTful APIs, WebSocket, Axios, Http
- Backend & Services:** Nodejs, Express, MongoDB, Firebase, JWT, Twilio
- UI & Styling:** Responsive UI, Theming, MUI, Styled-Components, Tailwind CSS
- Features:** Push Notifications, Maps, Geolocation, Live Tracking, Chats, Localization (Intl, I18n)
- Integrations:** Payment Gateways, In-App Purchases, Stripe, SwissPay, Third-Party APIs
- Testing & Debugging:** Jest, Performance Optimization, Error Handling, Debugging Tools
- Tools:** Postman, Android Studio, VSCode, Xcode

CERTIFICATIONS

- [AWS Certified Solutions Architect - Associate](#)
- [Udemy AWS Certified Solutions Architect 2025](#)
- [META Introduction to Backend Development](#)
- [META Introduction to Frontend Development](#)

ADDITIONAL PROJECTS

[FashionXotics](#): E-commerce [App](#) (Flutter/Next.js) GetX, Redux Toolkit, Stripe, SSR, advanced filter

[Azure Cloak VPN](#): VPN platform with WireGuard, Stripe, and In-App-Purchase integration.

[PakQue Kids](#): Educational Flutter app with maps, TTS, quizzes, and Strapi backend.

[Climate-IQ](#): IoT-based AC control app using ESP32, Wi-Fi, BLoC, and scheduling to cut energy.

[ChefChef](#): Recipe web app using Node, React, Redux, Stripe, and Figma-based UI.

[Fawkes Games](#): Games Selling platform built with React, Context API, Axios, and MUI.

[FitnessPal](#): Gym app (Node, React/Redux) for course supplement sales with Stripe and WebSockets chat.

EDUCATION

COMSATS UNIVERSITY LAHORE, PAKISTAN
MAJOR IN COMPUTER SCIENCE (SOFTWARE ENGINEERING)
